## Assembly

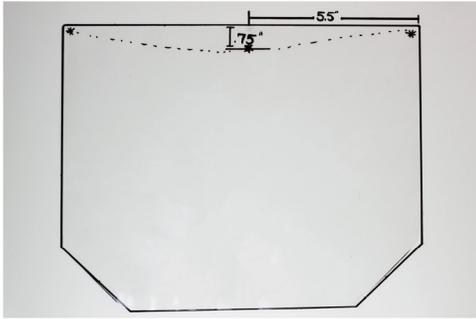

1. Materials: 1 laminating sheet, 1 plastic headband, 1 anti-slip silicone glasses strap

2. Tools: Ruler, scissors, hot glue gun, hot glue sticks

3. With the laminate laying horizontal, measure and mark 2 inches in from each corner and draw a diagonal connecting those points. Then cut on the diagonal line.

4. Measure 5.5" inches inward and .75" downward and mark this location

5. Hot glue where you marked. Place the center of the headband where you just glued

6. Hot glue a line from your center spot to the outer edge and secure to the headband

7. The laminate should be angled slightly away from the face

8. Put the ear grip hook on the headband

9. Attach the silicone strap

10. Finished model
