Topic Overview

There is so much to do and see in Las Vegas, Nevada. From shopping on the strip to catching a Raiders game, and betting at a casino, touring iconic architecture and landmarks, as well as lounging by a pool. Las Vegas is fueled by its exciting atmosphere and heavy tourism all year round. So why not add an NBA team into the mix?

Las Vegas would be the perfect city to expand the NBA franchise to as it not only hosts the Annual NBA Summer League, but it is also the gambling capital of the world. As sports betting is on the rise, it only makes sense that Las Vegas would be home to a variety of professional sports teams, which should include an NBA team.

Through design, I aim to give this NBA team a strong brand that highlights the historic city, the players, and the fans. My goal is to create a brand that the Las Vegas and NBA community will root for.

Design Opportunities

Through research on the city of Las Vegas and other NBA teams across the United States and Canada, I will design the key elements the NBA team must possess. This includes the brand, social media and website pages, merchandise, print graphics, an animated mark, a mascot, an arena, and a promotional video.

Topic Statement

Creating a new sports brand that highlights the city, the players, and the fans.

RESEARCH

- 12 Media Scan
- 13 Tourism Statistics
- 14 Cross Mapping
- 15 Popular Teams Scan
- 16 Digital Survey
- 17 Collaging Activity
- 18 Personas

Media Scan

I conducted a media scan to gain knowledge about the Nevada's state flag, state colors, popular sayings or mottos, local plants & wildlife, well-known architecture, and iconic landmarks. I also researched the current sports team in Las Vegas and gathered information about their colors, mascots, brand look & feel, and arenas.

The information I gathered from this online research played a key role in my brand design process. I wanted to make sure that I wasn't going to choose something for the NBA team that was already in place for another Las Vegas sports team, such as the team name, colors, mascot, mark, etc. Below is a collage of some of the information I found, including current Las Vegas sports mascots and team colors, unique architecture, and more.

Tourism Statistics

Going in to this project, I was under the assumption that Las Vegas had high tourism rates, but I wasn't sure where all the tourists were predominantly coming from. After reading many articles and charts about Las Vegas' tourism, I gathered that in 2022 ~1.8 million people traveled from Los Angeles, ~1.3 from San Francisco, ~800,000 from New York, ~750,000 from Chicago, and roughly 700,000 or less from Dallas, Seattle, Denver, Houston, and Atlanta.

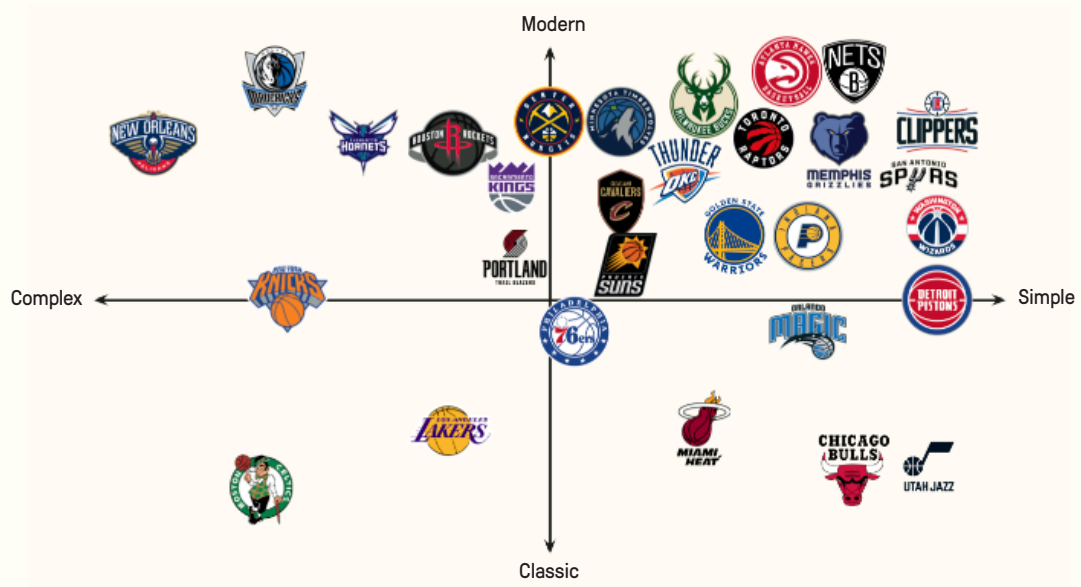

With this tourism information, I began to focus more so on these NBA teams and what their fans like and/or dislike about the them. Below is a map of the United States that shows all 30 NBA teams. By looking at the map, I was able to visualize how close in proximity each team is to Las Vegas and which teams current Las Vegas residents may tend to root for.

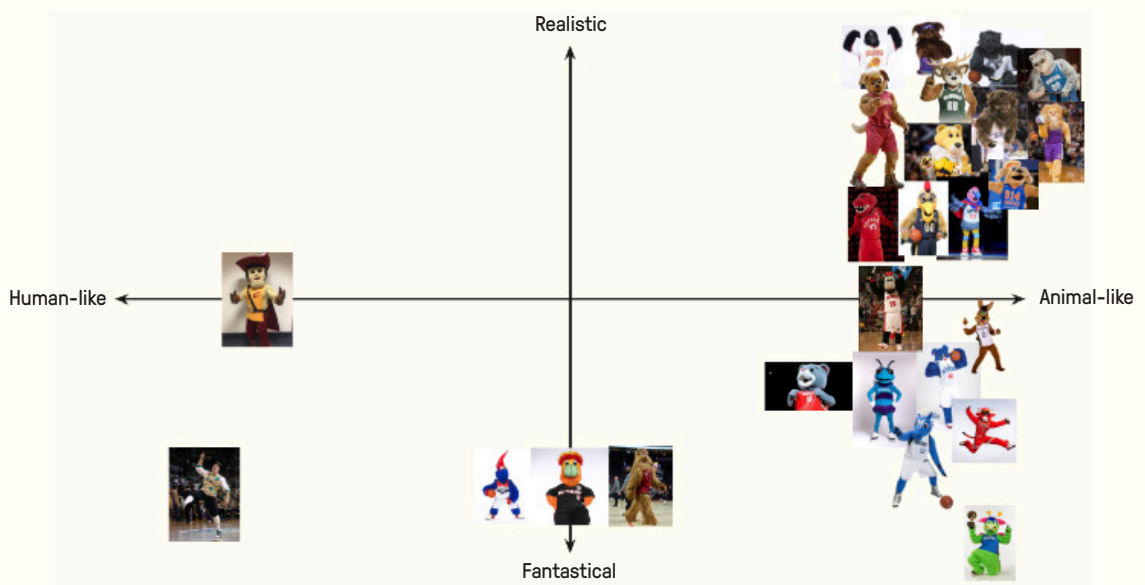

Cross Mapping

I examined all of the current NBA marks and placed them on a cross map. I compared each mark to one another ranking how complex or simple and modern or classic looking they were.

After gathering images of the current NBA mascots, I placed them on a cross map. I compared each mascot to one another ranking how human-like or animal-like and realistic or fantastical they were.

Popular Teams Scan

I decided to go more in-depth with researching the LA Lakers and the Golden State Warriors. I chose these two teams because they have a lot of social media followers, high merchandise sales, fan favorite players, and are the most watched teams.

LA Lakers

- 57 million+ social media followers
 - Instagram, Twitter, Facebook
- Sold the most merchandise in the 2022-23 season of any NBA team
- LeBron James
 - Tied for third highest paid player in NBA
 - Most popular NBA jersey sold
- 763,168 fans attended regular home games in the 2022/23 season

Golden State Warriors

- 52.9 million+ social media followers
 - Instagram, Twitter, Facebook
- Most watched team in the 2022-23 regular season
- Steph Curry
 - Highest paid player in NBA
- 740,624 fans attended regular home games in the 2022/23 season

Digital Survey

The goal of sending a digital survey was to gain insight into people’s fan experiences, specifically relating to basketball. Participants responses gave me a better understanding of what my design touchpoints should be, as well as what they feel current NBA teams lack that I can design better.

There was a total of 11 responses. At the end of the survey, participants had the option to leave their contact information to take part in the collaging activity.

What is your favorite NBA/WNBA team?

What do you like and/or dislike about your favorite NBA/WNBA team?

- “should have selected a team name that was something that was tied to the city or state of Ohio”
- “dislike constantly changing uniforms (lots of merch to buy)”
- “like the team colors & merchandise”
- “from my hometown”
- “like: connection to the city of Philly / trust the process motto”
- “Don’t like how much they post on social media”

If you follow NBA/WNBA teams on social media, on what platforms and how often do you pay attention to their posts?

- “Pay more attention to posts after the game”
- “mostly after on Instagram and twitter”
- “Normally after to see the score since I primarily don’t have the ability to watch 76ers games on TV in Columbus”
- “I pay more attention to their posts after the game on Instagram if they win. However, I pay more attention to Twitter during the game for faster updates”

How do you watch NBA/WNBA games?

Do you follow any NBA/WNBA social media pages? (TikTok, Instagram, Twitter, etc)

Have you ever watched or attended the NBA Summer League games in Las Vegas, NV?

Do you think there should be a NBA team in Las Vegas?

- “Yes! While most teams just get the home team crowd, which Vegas could surely support, the visiting team could probably draw several of their fans to travel to a destination like Vegas for a game as well”.
- “Yeah! I feel like any city benefits from professional sports teams. Vegas got a new NHL team, the Knights, a few years ago, and only good things have come from that that I can see”.
- “I believe basketball will be a more profitable market in that city as it tends to be a more favorable sport in this region compared to hockey”.
- “Yes -- it is a big, fun city, and it seems crazy there isn't already a team there. I think an NBA team in Vegas would be super fun”.
- “Yes- with expansion coming in Seattle, Las Vegas is the next logical place to put a team”.

Collaging Activity

After receiving survey responses and the optional participant contact information, I conducted three collaging activities through Miro. The collages numbered 1-3 were completed by the participants and the fourth collage was created by myself. The collage I generated was influential as I began to make my moodboard and the overall look and feel for my brand.

Team Values

I chose the following values for the Las Vegas team based off of the NBA's values, "lead with integrity, be the fan, create community, and innovate with intention", as well as the feedback I received from my research.

Pride

Encourage fans to be proud of the team that they are rooting for.

Sense of Community

Bring individuals of all different backgrounds together through the love of basketball & Las Vegas.

Fun

Provide a safe and exciting game experience for fans & athletes alike.

Inspiring

Inspire younger generations to get involved in the NBA community.

Moodboard

I created a collage of what I want the team's brand to incorporate. With this, I made sure to tie the city, players, and fans into the design as mentioned within the topic statement.

Design Elements

I designed various patterns utilizing the primary mark, a scorpion icon, and card suit icons shown in the brand colors. I wanted to make sure there was variety in the designs as the pattern can be utilized across digital and printed works.

As seen in the above patterns, I have also designed a scorpion icon and card suit icons (below). Other design elements utilized throughout the Scorpions brand include one color gradients and pattern gradients.

Court

The Scorpions will play at the T-Mobile arena. The NBA compliant basketball court features the team's social media handle, @Scorpions, as well as the website URL, Scorpions.com. The tri-color primary mark is located in the center with "Las Vegas" and "Scorpions" at either end of the court.

Mascot

Spade the scorpion is the team mascot. Spade wears a big red chain necklace featuring the tri-color primary mark. The mascot's tail has four brand colored bands on its tail with a diamond shape tail end drawing back to the primary mark.

Billboard

Billboards hinting at an NBA team coming to Las Vegas can be found around the city. The billboards showcase an athlete wearing the home jersey with one of the patterns behind them and the primary mark with an announcement date to the left.

Explanation Video

The following images are video captures from Scorpion's explanation video. The video introduces Las Vegas to the new NBA team and all the fun it has to offer potential fans.
